

Trails

The Forks Trail System

Northern Outdoors Trail Report

Stay up to date on trail conditions in The Forks Trail System.

Riders depend on our weekly report covering ITS 86, 87 and 89. New this year you can find our report in 3 convenient places for your lifestyle:

- On our website (Snowmobiling section) at www.NorthernOutdoors.com
- On our brand new **Maine Snowmobiling Blog**, at blog.northernoutdoors.com
- On the Williams Broadcasting Snowmobile Trail Report sponsored by Northern Outdoors, and broadcast on www.NewEngland'sFavoriteRadioStations.com

Well-signed Winter Wonderland of Trails

The Forks' trail network is part of Maine's Interconnecting Trail System (ITS 86, 87, & 89) and offers over 150 miles of top quality, uncrowded riding. It is North Woods snowmobiling at its best, with diverse terrain that makes for exciting riding, incredible scenery, well groomed trails, and an average annual snowfall of nearly 10 feet. The Forks directly accesses Maine's 13,000 miles of groomed snowmobile trails.

"THE WHOLE DEAL - Only on rare occasions do you get mountains, lakes, and trails together for a gorgeous and entertaining ride!"

- American Snowmobiler

Grooming

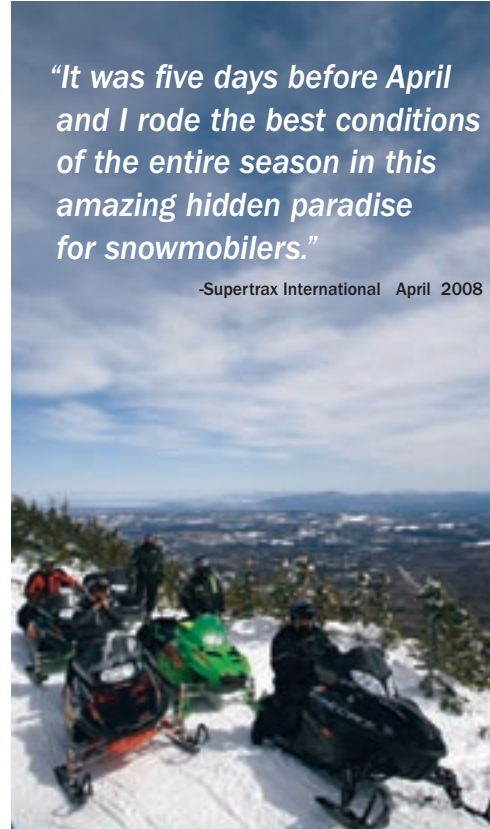

Smooth Trails

"It was five days before April and I rode the best conditions of the entire season in this amazing hidden paradise for snowmobilers."

-Supertrax International April 2008

Grooming is the single most important thing in snowmobiling. Ask any rider - it's the element that defines how great your day is. Northern Outdoors owns two state-of-the-art Tucker Terra trail groomers. Our groomers are part of The Forks area fleet of five turbodiesel groomers that hit the trails regularly to provide riders with some of the smoothest riding anywhere. We work hard to ensure that the trails leading from our Forks Resort Center are always in top shape.

NEW IN 2009
